### **DETAILED ACTION**

1. This communication is in response to Applicants' submission of a Declaration under 37 C.F.R. 1.131 filed on September 10, 2001. Claims 1-18 are under prosecution in this application. The objections and rejections cited are as stated below:

2. The Declaration filed on September 10, 2001 under 37 CFR 1.131 has been considered but is ineffective to overcome the Henson et al. reference US patent No. 6,167,383.

In particular, the declaration under 37 CFR 1.131 does not contain the signatures of all the inventors of the subject matter claimed. Even though the declaration indicated that one of the inventors is no longer with the company, no evidence has been submitted to proof that a diligent effort has been made to find or reach the other inventor(s). Applicant is respectfully required to meet the criteria set forth in the MPEP 715.04.

Also, it is not clear from the attached exhibits the facts that are established by Applicant in showing the completion of the invention prior to the particular date. Applicant is respectfully required to submit a statement explaining the details of the exhibits from Dell patent database system and more screen captures showing the claimed invention. See MPEP 715.02 and 715.07.

Applicant is respectfully required to submit the names of any products or services that have incorporated the claimed subject matter. Also, any earlier versions of the software "The

Online Store”, and any information regarding the system may be material to the patentability of the disclosed invention.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --  
(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

4. Claims 1-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Henson et al. US Pat. No. 6,167,383 as discussed in paragraph 5 of paper No. 4.

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37
